

MARKETING STRATEGY

Florence Olivia

Go-To-Market Plan — Target Audience, Instagram, SEO, Keywords, Paid Media & Cost-Per-Customer Budget

65–75% Occupancy target · Year 1	60% Direct booking target	\$95–140 Target cost per booking	90 days To first full booking cycle	\$3.8k Year 1 paid media budget
-------------------------------------	------------------------------	-------------------------------------	--	------------------------------------

OI OBJECTIVE & TARGETS

Primary objective: lift Florence Olivia from a standing start to 65–75% annual occupancy within 12 months, with 60% of bookings coming direct via florenceolivia.com rather than through an OTA. Strahan's market average occupancy is 55.8% — the target intentionally sits above market, supported by central positioning at 3 Harold Street, 100 metres from the Gordon River terminal, and a heritage character that generic apartment-style competitors cannot match.

Phase	Weeks	Focus	Success Metric
1 — Foundation	1–4	GBP setup, Instagram launch, SEO technical base, OTA listings live	Site live · GBP verified · 20+ posts · Stayz listed
2 — Awareness	5–12	Content cadence established, paid social launch, first reviews	500+ followers · 15 sessions/day · 5 bookings
3 — Conversion	13–26	Google Ads live, retargeting, email capture, referral loop	40% direct share · \$120 avg cost/booking
4 — Compound	27–52	Organic SEO ranking, repeat guest email, reduced paid spend	60% direct share · 65%+ occupancy

02 TARGET AUDIENCE — PRIMARY PERSONAS

Four primary guest personas drive booking demand for a heritage one-bedroom property in a nature and wilderness gateway town. These are built from Strahan's known visitor mix — couples-heavy, nature and heritage motivated, mid-to-high spend — and the structural profile of who books boutique heritage stays over hotel rooms or budget apartments.

Persona	Profile	Motivation	Share
The Wilderness Couple	Couples, 35–60, interstate (VIC/NSW/QLD), professional occupations. Travelling for the Gordon River cruise, Cradle Mountain, West Coast Wilderness Railway.	A comfortable, characterful base to return to after a big day outdoors — not a generic motel room.	45%
The Heritage Traveller	Couples or solo, 45–70, higher discretionary income, drawn to history and architecture. Actively seeks character properties over chain accommodation.	The building is part of the experience. Books on story and photography, not just location.	25%
The Tasmanian Weekender	Hobart or Launceston couples and small groups, 30–55, regional escape from home state. Shorter stays, higher repeat frequency.	A nearby, easy getaway with genuine character — different from the everyday. Price-sensitive in shoulder/low season.	20%
Event & Occasion	Anniversaries, small milestone celebrations, photography trips. Willing to pay a premium for the right setting.	Seeking a specific atmosphere — heritage character photographs well and feels considered.	10%

03 WHAT THIS AUDIENCE IS NOT

Florence Olivia is a one-bedroom property with a two-night minimum — structurally unsuited to large family groups, schoolies-style traveller cohorts, or bulk group bookings. Marketing spend should not target broad "Tasmania holiday" or family-travel audiences — this dilutes budget against personas who bounce off the listing on bedroom count alone. Focus stays narrow: couples and small pairs seeking character accommodation in a nature-tourism gateway town.

04 TASMANIA VISITOR ECONOMY — HEADLINE FIGURES

Tasmania recorded 1.404 million visitors in the year ending March 2026 — a record high, up 4.8% year-on-year, driven by record interstate visitation. Total visitor expenditure reached \$3.79 billion, with international spend surging 36.2% to \$758.6 million. This is the macro tailwind Florence Olivia is entering the market against.

Metric	Figure	Source
Total visitors (YE Mar 2026)	1.404 million	Tourism Tasmania · TVS
Interstate (domestic) visitors	1.2 million · ~85%	Tasmanian Visitor Survey
International visitors	~200,000 · ~15% · spend +36.2%	Tourism Tasmania
Total tourism expenditure	\$3.79 billion	Tourism Tasmania
Year-on-year visitor growth	+4.8%	Tourism Tasmania
Queensland market growth	+12.7% YoY · fastest-growing	Tasmanian Visitor Survey
Rental car use (leisure)	~50% of leisure visitors	Tasmanian Visitor Survey

05 INTERSTATE ORIGIN MIX — WHERE TO FOCUS PAID SPEND

Origin Market	Trend	Targeting Priority
Victoria	Largest single interstate market historically, strong Tasmania affinity	High — primary paid audience
New South Wales	Second-largest market, high spend per visitor	High — primary paid audience
Queensland	Fastest-growing interstate market, +12.7% YoY, record spend	High — emerging, underserved
South Australia / WA	Smaller volume, longer-haul, higher intent when booking	Medium — retarget only
Tasmania (intrastate)	4.53 million intrastate trips/yr, up 5.0%	Medium — Weekender persona fit

06 ESTIMATED AGE & TRAVEL PARTY PROFILE

Granular age and income breakdowns specific to Strahan and West Coast heritage accommodation are not separately published. The figures below are a reasoned profile based on Tasmania's established nature and heritage tourism segment behaviour — consistently couples-heavy, 35+, higher discretionary spend — rather than a directly cited statistic. Treat as directional and refine with your own booking data after the first 20–30 reservations.

Segment	Estimated Share	Booking Pattern
Couples, no children (35–54)	~40%	2–3 night stays, higher rate tolerance, book 4–8 weeks out
Empty-nester couples (55–70)	~30%	3+ night stays, shoulder-season heavy, book further ahead
Small groups/pairs (25–34)	~15%	Weekend stays, price-sensitive, book closer to date
Solo travellers	~10%	Photography and writing retreats, heritage enthusiasts, flexible dates
Other (business, misc.)	~5%	Irregular, lower marketing relevance

07 HOUSEHOLD INCOME & SPEND PROFILE

At \$245–\$375 per night with a two-night minimum, Florence Olivia sits in the premium tier of Strahan accommodation. This naturally filters toward higher-income guests already — targeting should reinforce rather than fight this. Meta and Google audience settings should favour household income in the top 25–30% where available, professional occupation categories, and interest signals around boutique travel, heritage architecture, and premium outdoor brands.

08 CHANNEL MIX — WHERE THE BOOKINGS COME FROM

Channel	Role	Share	Cost Model
Google Business Profile + SEO	Discovery for high-intent "Strahan accommodation" searchers	25%	Free — time investment
Instagram (organic)	Awareness, trust-building, brand voice, retargeting pool	20%	Free — content time
Google Search Ads	Capture high-intent searches organic hasn't won yet	15%	Paid · \$2.12 avg CPC
Meta Ads (retargeting)	Convert warm visitors who didn't book on first visit	10%	Paid · \$1.47 avg CPC
Stayz / VRBO	Incremental discovery, families, longer stays	20%	5.5% commission
Email (repeat + referral)	Past guests, TimberSea database, word of mouth	10%	Free

09 META AUDIENCE TARGETING BRIEF

Layer	Setting
Location	VIC, NSW, QLD primary + TAS intrastate secondary. Exclude WA/SA/NT from cold audiences.
Age	35–65, weighted toward 40–60
Interests	Tasmania travel, boutique/heritage accommodation, Gordon River, ecotourism, national parks
Household income	Top 25–30% where platform data available
Exclude	Family/childcare interests, backpacker/hostel interests, budget travel apps
Retargeting pool	Website visitors (30/60/90 day), Instagram engagers, past enquiry list

Buffer's 2026 data shows three posts per week outperforms daily posting on engagement — 4.1% versus 3.2% — consistency beats volume. Reels are the primary discovery mechanism for non-followers; Instagram's algorithm actively favours video when surfacing content to new audiences. Host-led, face-forward content now outperforms property-only shots for owner-operated rentals — a meaningful shift from 2023-era strategy.

Element	Recommendation
Handle	@florenceolivia.strahan · or @stayflorenceolivia
Bio (150 char)	1900s heritage stay · Heart of Strahan, Tas · 100m to Gordon River · Book direct, no fees ↓
Profile photo	Exterior sign shot — the hero image, recognisable and on-brand
Link	Linktree or direct to florenceolivia.com/book with UTM tracking
Highlights	Rooms · Strahan Guide · Reviews · Book Direct · FAQ

Weekly Content Rhythm — 5 posts per week

Day	Format	Content
Monday	Reel (15–30s)	Room walkthrough — phone-shot, natural light, one room per week on rotation
Wednesday	Feed carousel	Property detail paired with local context — "The Chesterfield + your morning coffee spot 100m away"
Thursday	Story series	Behind-the-scenes — turnover day, styling the room, host preparing for guests
Friday	Reel (local)	Strahan spotlight — Gordon River, Risby Cove, harbour at golden hour
Sunday	Feed or Story	Guest testimonial, UGC repost, or a "book direct" reminder with link sticker

Wednesday at 12pm or 6pm shows the highest cross-industry engagement (Buffer, 9.6M posts analysed, 2026). Use 3–5 specific hashtags rather than broad ones — hashtag following was removed from Instagram in December 2024, so keyword-rich captions now matter more than tag volume.

Content Pillars

Pillar	Share	Purpose
Property showcase	35%	Rooms, styling, heritage details — the core sell
Location & Strahan	30%	Gordon River, harbour, restaurants — sell the town, not just the room
Host / behind-the-scenes	20%	Trust signal — the human running it, not a faceless listing
Guest stories / UGC	15%	Social proof — reposted guest content, reviews as graphics

II GOOGLE BUSINESS PROFILE — HIGHEST PRIORITY, FREE

Local SEO ranking in 2026 breaks down as: GBP signals 32%, on-page 19%, reviews 16%, links 15%, behavioural 8%, citations 7% (Whitespark 2026 survey). GBP is the single highest-leverage free asset available — most hosts pour marketing energy into OTA optimisation and overlook the free real estate sitting inside Google Search itself.

Action	Priority	Detail
Claim & verify listing	Critical	Address: 3 Harold Street, Strahan TAS 7468. Category: Vacation home rental
Upload 20+ photos	Critical	Google requires 8+ for VacationRental rich results eligibility
Complete every field	High	Hours, amenities, price range, description — completeness is a ranking factor
Post twice monthly	High	GBP Posts — availability, new photos, offers — signals active management
Review generation	Critical	Post-stay message with direct link to Google review. Target 1 per 3 bookings
Respond to all reviews	Medium	Response activity is a direct ranking signal — respond within 48 hours

I2 WEBSITE SEO — TECHNICAL & CONTENT

Factor	Status / Action	Why It Matters
HTTPS + mobile-first	Done — Netlify	65%+ of vacation rental searches are mobile
Page speed	Verify with PageSpeed Insights	Core Web Vitals are a direct ranking signal in 2026
Price accuracy across web	Audit quarterly	Google cross-references pricing live; mismatches demote listings
Image alt tags	Add to all 12 property photos	"Florence Olivia heritage bedroom Strahan" — image search visibility
Schema markup	Add VacationRental schema	Tells Google exactly what the page is — required for rich results
Long-tail content	Build local.html further	OTAs can't target long-tail local phrases — a direct site can

Realistic goal: don't compete with Airbnb or Booking.com for broad terms like "Strahan accommodation" — their domain authority took years to build. Target the specific searches OTAs answer poorly — the full keyword set for both organic SEO and paid search follows on the next two pages.

13 ORGANIC SEO — PRIMARY KEYWORD TARGETS

These are the terms to build into page titles, H1/H2 headings, meta descriptions, image alt text and body copy across florenceolivia.com. Organic SEO plays a longer game than paid — the goal is to own the long-tail phrases that Airbnb and Booking.com structurally cannot target, while building topical authority around Strahan itself.

Keyword	Intent	Target Page
Florence Olivia Strahan	Branded — highest priority to own	Homepage, all pages
heritage accommodation Strahan	High commercial intent	Homepage, Property
3 Harold Street Strahan accommodation	Branded/local — near-zero competition	Property, Contact
self-contained accommodation Strahan	High commercial intent	Amenities
heritage stay near Gordon River cruise	Long-tail commercial — low competition	Property, Local Area
1900s heritage building Strahan	Descriptive/branded	Property
Strahan accommodation near Gordon River terminal	Long-tail commercial	Local Area, Book
boutique accommodation West Coast Tasmania	Category commercial	Homepage
couples accommodation Strahan	Persona-specific commercial	Homepage, Book
direct booking Strahan accommodation no fees	Conversion intent — differentiator	Book
Strahan self-catering heritage house	Descriptive commercial	Property, Amenities
where to stay Strahan Tasmania	Top-of-funnel informational	Homepage, Local Area
West Coast Wilderness Railway accommodation	Long-tail commercial — activity-adjacent	Local Area
pet friendly accommodation Strahan	Filter/amenity intent	Amenities

14 CONTENT & TOPICAL AUTHORITY TERMS

Beyond direct booking keywords, [local.html](#) and any future blog content should build topical authority around Strahan itself — Google rewards sites that comprehensively cover a location, not just a listing.

Strahan Tasmania	Gordon River cruise	Macquarie Harbour
Hells Gates	Sarah Island	Risby Cove Strahan
West Coast Wilderness Railway	Ocean Beach Strahan	Henty Dunes
Franklin-Gordon Wild Rivers	Queenstown Tasmania day trip	Strahan restaurants

things to do Strahan		
----------------------	--	--

15 GOOGLE ADS — EXACT MATCH (HIGH INTENT, PROVEN)

Exact match converts 40% of interactions into conversions while accounting for only 27% of impressions — the best conversion-per-impression rate of the three match types (Adalysis, 16,825 campaigns, Dec 2025). Reserve exact match for the highest-intent terms below and build conversion volume here first.

Keyword	Est. CPC	Priority
[Florence Olivia Strahan]	\$0.50–\$1.00	Critical — brand protection
[Strahan accommodation]	\$2.00–\$2.50	High
[Strahan holiday rental]	\$1.80–\$2.20	High
[Strahan self contained accommodation]	\$1.60–\$2.10	High
[heritage accommodation Strahan]	\$1.70–\$2.00	Medium
[3 Harold Street Strahan]	\$0.50–\$1.00	Medium — near-zero competition

16 GOOGLE ADS — PHRASE MATCH (DEFAULT STARTING POINT)

Phrase match is the right default for most campaigns building initial conversion data — anchored to core meaning while allowing Google room to match adjacent intent. Travel and hospitality averages \$1.59–\$2.86 CPC (WordStream 2026).

Keyword	Est. CPC	Notes
"West Coast Tasmania stay"	\$1.50–\$2.00	Broader geographic net
"heritage stay Tasmania"	\$1.80–\$2.50	Category — awareness-building
"couples accommodation Strahan"	\$1.70–\$2.10	Persona-aligned
"Gordon River accommodation"	\$1.90–\$2.40	Activity-adjacent, high relevance
"boutique accommodation west coast Tasmania"	\$1.80–\$2.30	Positioning-aligned
"where to stay near Gordon River"	\$1.60–\$2.00	Informational-commercial blend

17 META ADS — INTEREST & BEHAVIOURAL KEYWORDS

Meta doesn't use search keywords the way Google does — instead, these terms map to interest categories, ad copy language, and creative captions for the awareness and retargeting campaigns outlined earlier.

Tasmania travel	boutique accommodation	heritage architecture
Gordon River cruise	ecotourism Tasmania	national parks Australia

weekend getaway Tasmania	West Coast Tasmania	couples travel
self-contained accommodation	direct booking travel	Tasmanian Wilderness

18
NEGATIVE KEYWORDS — EXCLUDE FROM ALL PAID CAMPAIGNS

Build this list in parallel with any match type strategy — structural, not optional. These terms indicate intent that will never convert to a booking at Florence Olivia and will silently burn budget if left unblocked.

free	cheap	budget	hostel
backpacker	camping	jobs	careers
for sale	real estate	rental property investment	caravan park
motel	DIY	self guided	itinerary template

19 COST PER CUSTOMER — FULL BREAKDOWN

Cost per customer blends free channels — GBP, Instagram organic, email — with paid channels (Google Search, Meta) and OTA commission, treated as an acquisition cost. This is the number that matters more than any single channel metric.

Channel	Spend/yr	Bookings/yr	Cost/Booking	Notes
Google Business Profile	\$0	8–10	\$0	Free — time cost only
Instagram organic	\$0	5–7	\$0	Free — 3–5hrs/week content time
Email (repeat/referral)	\$0	3–5	\$0	Free — existing guest database
Google Search Ads	\$1,200	8–12	\$100–150	565 clicks/yr @ \$2.12 CPC
Meta Ads (retarget)	\$1,800	10–15	\$120–180	~1,200 clicks/yr blended CPC
Stayz / VRBO	\$0 upfront	10–15	~\$21	5.5% commission on referred bookings
Content / photography	\$800	—	Amortised	One-off foundation cost
BLENDED TOTAL	\$3,800 +	44–64	\$95–140	Paid ~55% of spend for ~35% of bookings

Free and owned channels are projected to deliver 16–22 bookings per year at zero media spend — the primary cost there is time, not budget. Every booking earned organically lowers the blended cost-per-customer for the whole business.

20 MONTHLY PAID MEDIA BUDGET — YEAR 1

Month	Google	Meta	Total	Rationale
Sep	\$60	\$100	\$160	Ramp up pre-shoulder season
Oct	\$100	\$150	\$250	Shoulder season, building momentum
Nov	\$120	\$180	\$300	Peak season begins
Dec	\$150	\$200	\$350	Peak — Christmas/summer bookers
Jan	\$150	\$200	\$350	Peak continues
Feb	\$120	\$150	\$270	Peak tapering — strongest market month
Mar	\$100	\$120	\$220	Late peak / early shoulder
Apr	\$80	\$100	\$180	Shoulder
May	\$60	\$80	\$140	Shoulder into low
Jun	\$40	\$60	\$100	Low season — minimal spend
Jul	\$40	\$60	\$100	Low season
Aug	\$50	\$70	\$120	Low season, prepping next ramp
TOTAL	\$1,070	\$1,470	\$2,540	Paid media total, excl. one-off costs

21 FULL YEAR 1 BUDGET SUMMARY

Category	Annual Cost	Share
Google Search Ads	\$1,070	24%
Meta Ads — Facebook + Instagram	\$1,470	33%
Professional photography — one-off	\$800	18%
Content tools — Buffer/Later	\$180	4%
Stayz annual listing	\$699	16%
TOTAL MARKETING INVESTMENT	\$4,219	100%

At a projected \$80,991 annual revenue — per the earlier pricing analysis — total marketing investment of \$4,219 represents 5.2% of revenue, within the healthy 5–8% benchmark for hospitality businesses. This compares favourably to the 15.5% Airbnb would take in commission alone, before any marketing spend.

22 OCCUPANCY TRAJECTORY — 12 MONTH TARGET

Quarter	Target Occupancy	Bookings	Primary Driver
Q1 · Sep–Nov	40–50%	10–13	Foundation — GBP, Instagram launch, first reviews
Q2 · Dec–Feb	75–85%	20–24	Peak season + paid media ramp + word of mouth
Q3 · Mar–May	55–65%	14–17	Shoulder — SEO starting to rank, repeat guest email
Q4 · Jun–Aug	45–55%	11–14	Low season — organic channels carry the load
Year 1 Average	~65%	~55–68 total	Above Strahan's 55.8% market average

23 KEY PERFORMANCE INDICATORS TO TRACK

Metric	Tool	Target	Cadence
Occupancy rate	Command centre calendar	65–75% Year 1 avg	Weekly
Direct booking share	Command centre bookings	60% by month 12	Monthly
Cost per booking, blended	Ad spend ÷ bookings	\$95–140	Monthly
Instagram engagement rate	Instagram Insights	3–5%	Weekly
Website conversion rate	Google Analytics	8%+ · travel industry avg	Monthly
Google review count/rating	GBP dashboard	4.8+ stars	Monthly
Organic search impressions	Google Search Console	Growing month-on-month	Monthly
